

The International Veterinary Acupuncture Society has been working on improving the “Search for a Vet” portion of our website. We have found that many people cannot find what they are looking for – such as a veterinarian who does herbal medicine as well as acupuncture and what animals the veterinarian treats. Please help IVAS help you. The search for a vet is only as good as the information put in. People can now search for a vet using a map with your zip/postal code.

The form below will help us put information on the website that could bring clients to your practice. The more complete it is, the easier it will be for the client. Please fill the form out with ALL information you would like the public to see on the IVAS “Search for a Vet”.

If you do not want your information listed, please check the box and fill out your name and return.

Fill out this form and return via email/fax/mail to: International Veterinary Acupuncture Society
 PO Box 271458
