

XXI SIAV INTERNATIONAL CONGRESS

VETERINARY ACUPUNCTURE: TRADITION AND MODERNITY

RIMINI – ITALY

24th -26th September 2020

CONGRESS GOALS

On the occasion of the XXI International Congress, the ***Italian Society of Veterinary Acupuncture (Società Italiana Agopuntura Veterinaria - SIAV)*** invited distinguished speakers, who will share with us their vision of TCM.

Thanks to **Dr. Giuseppe Brambilla** we will address the study of the Energy Levels deepening their energetic aspect and thanks to **Dr. Giuliana Galassi** the study of TMM (tendinomuscular meridians) in small animals and their practical application.

Dr. **Weerapongse Tangjitjaroen**, who lives and works in Thailand, will introduce us to his Acupuncture method both theoretically and practically, thanks to the Wet Lab he will hold with small animals and horses.

Sharing different cultures and backgrounds will allow us to grow further in our everyday clinical practise.

-
