

XXV S.I.A.V. INTERNATIONAL CONGRESS

*«Reproduction, birth and growth
in MVTC»*

FLORENCE – ITALY

26-27-28 September 2024

CONGRESS EDUCATIONAL GOALS AND OBJECTIVES

The **XXV S.I.A.V. International Congress** focuses on the first period of life of the animal, from intrauterine life to the moment of growth.

Through the talks of speakers, we will have the opportunity to learn **how Traditional Chinese Medicine interprets the first moments of life formation** and which energies are most involved in the conception and growth of the new individual.

Wide space will be given to **prevention and treatment modalities according to the disciplines of MVTC** and the new related techniques, so as to provide the veterinarian with a wide range of therapeutic and preventive possibilities for pregnancy and growth disorders, in a perspective of **integration of medicines that aims to ensure the well-being of the fetus and the mother and the prevention of the development of diseases in the growth phase.**

During a **wet lab**, we will have the opportunity to learn about and practice a manual technique (the **Ttouch**) that is useful for improving puppy growth in terms of behavior and social relationships

Marta Rostagno DVM, Italy

I graduated in Veterinary Medicine from the University of Milan in 1989.

From the beginning I dedicated myself to the free profession in the care of companion animals.

I am currently a partner and Medical Director of the Castronno Veterinary Clinic in the province of Varese, where I deal mainly with soft tissue surgery and complementary medicine.

In 2001 I obtained the Diploma of Veterinary Acupuncturist SIAV (Italian Veterinary Acupuncture Society) and since then I have been participating in the organizational and teaching activities of the Society.

I served as SIAV President in the three-year period 2005-2007 and have been a speaker at Chinese Medicine Seminars and Congresses in Italy and abroad

In 2002 I obtained the Certificate of Veterinary Acupuncturist IVAS (International Veterinary Acupuncture Society)

Giuseppe Brambilla DVM, Switzerland

DEGREE IN "VETERINARY MEDICINE" 1986

DEGREE IN "DOCTOR OF SCIENCE OF ORIENTAL MEDICINE" (Clayton University) 2003

ASSOCIATE PROFESSOR at THE ACADEMY OF CHINESE TRADITIONAL MEDICINE IN BEIJING from 2006 till now

Ronald Boon Wu Koh DVM, California

Graduate of veterinary medicine from Taiwan, completed a specialized internship and a Master's in acupuncture and integrative medicine at University of Florida Veterinary College. He has been serving as an instructor and lecturer at Chi University teaching acupuncture, Chinese herbal medicine, Chinese food therapy, Tui-na, topographic acupuncture, rehabilitation, and pain management. Currently, he is an associate clinical professor and head of the Sports Medicine, Rehabilitation, and Integrative Medicine service at UC Davis Veterinary School. Prior to that, he was an assistant clinical professor at LSU Veterinary School (2013-2020), where he pioneered the Integrative Medicine Service, emphasizing Traditional Chinese Veterinary Medicine and rehabilitation. Dr. Koh is board-certified in Veterinary Sports Medicine and Rehabilitation (DACVSMR), and was recently named a Charter Fellow of the American College of Veterinary Botanical Medicine (FACVBM). His certifications span acupuncture, Chinese herbal therapy, food therapy, rehabilitation, and medical manipulation. Dr. Koh's extensive authorship includes numerous book chapters and peer-reviewed articles on TCVM, acupuncture, integrative medicine, and rehabilitation. He is both an editor and author of "Veterinary Acupuncture: The New Concepts" [in Chinese]. Dr. Koh is a national and international speaker on acupuncture, TCVM, integrative medicine, and rehabilitation, with several Excellent Speaker Awards from Chi University and WATCVM to his credit. In 2021, he received the prestigious Ma Shi Huang Award from Chi University, acknowledging his outstanding contributions in TCVM. His clinical focus encompasses TCVM, rehabilitation, and integrative treatments, particularly addressing pain management, mobility issues, and chronic conditions, with the aim of improving clinical outcomes, functionality, and quality of life.
