

Reasons to Choose IVAS Certification

* **Learn from the first certification program in the United States.**
Over 50 years experience certifying veterinarians

* **64-Hours of hands-on acupuncture points labs & case demonstrations**
With live dogs & horses, this give veterinarians the practice that is required to confidently find & needle acupuncture points on their patients

* **Veterinarians can start applying their new skills**
When they return home after the first onsite session

* **Our online pre-recorded lectures allow flexibility to study from home**
In our fast-paced modern lives this course blends online learning with hands on experience

Take your patient care further!
Become certified in veterinary
acupuncture & elevate the way
you treat.

We believe acupuncture is best learned “Hands-On.” As a veterinarian, you examine patients in person, so your acupuncture training should be the same. Our course provides live-patient experience, backed by over 50 years of certifying veterinarians in acupuncture.

Guided by experienced instructors, you’ll build the skills and confidence to integrate acupuncture into your practice, learning both the scientific foundations and Traditional Chinese Medicine applications.

Doing Acupuncture!***

Our Educational Program

Our course combines flexible online learning with interactive, in-person sessions. Pre-recorded lectures prepare you for three hands-on sessions, featuring live-animal acupuncture point labs and case demonstrations. Each hands-on session is 2.5 days. The final 4.5-day session includes a 16-hour mentorship and IVAS Certification Exams.

Hands-on Acupuncture

The course includes 4 online modules with 96+ hours of lectures and 64 hours of hands-on labs and live case demos. Our online classroom offers video demonstrations, study guides, quizzes, and a forum for expert guidance. Tuition includes IVAS canine and equine acupuncture flashcards with Western and TCM point locations & uses.

Live Case Demos

Peer-to- Peer Mentorship Program

Learn veterinary acupuncture for small animals, equine, avian, and exotics. IVAS Certification is offered in Small Animal, Equine, or Dual tracks, with hands-on labs tailored to your species of choice. Online lectures include both equine and small animal content—no extra cost.

On-demand lecture videos

Prerequisites

Attendees of the IVAS Certification Course in Veterinary Acupuncture must be a licensed veterinarian, or a third or fourth-year veterinary student. Proof of veterinary license or attendance at an accredited veterinary University is required.
